Perfect for gamers,
power users and
slower PCs

1 User 1 Year + 1 Year FREE Subscription

ORIGINAL PRICE: PHP 924.00

OUR PRICE: PHP 749.00

SUPPORTS:

Microsoft Windows® 10,
8.1, 8, 7 with SP1 and
latest KB updates
installed

FEATURES

Antivirus and Antispyware

Gives you a monthly insight into how ESET protects your computer.

Anti-Phishing

IMPROVED

Protects your privacy and assets against attempts by fake websites to acquire sensitive information such as usernames, passwords or banking details and homoglyphs.

Ransomware Shield

Blocks malware that tries to lock you out of your personal data and then asks you to pay a 'ransom' to unlock it.

HIPS

IMPROVED

Lets you customize the behavior of the system in greater detail with focus on behavioral detection.

Security Report

Provides proactive protection against all types of online and offline threats and prevents malware spreading to other users.

Small System Footprint

Maintains high performance and extends the lifetime of hardware.

Gamer Mode

Automatically switches to silent mode if any program is run in full-screen.

Advanced Machine Learning

NEW

In addition to ESET Machine Learning in the cloud, this proactive layer runs locally. It is designed specifically to detect advanced, never seen before malware, while having a low impact on performance.

DOWNLOAD AND INSTALL ESET NOD32 ANTIVIRUS

1. Uninstall any previously installed antivirus software on your system.
2. Download the ESET NOD32 Antivirus installer file from this link:
http://download.eset.com/com/eset/tools/installers/live_eav/latest/eset_nod32_antivirus_live_installer.exe
3. In the Install ESET NOD32 Antivirus window, click **Continue**.
4. Review the End-user license agreement and click **I Accept**.
5. In the Choose an activation option window, click **Use a purchased License Key**. If you are updating from a previous version, your license info will be entered automatically.
6. In the Use a purchased License Key field, type or **copy/paste your License Key and click Continue**. Make sure you enter the License Key exactly as it appears and include the hyphens. If you copy/paste, be sure you do not accidentally select additional space around the text. Be sure to **include the hyphens**.
7. Click **Continue**.
8. Select your preference for ESET Live Grid and Detection of Potentially Unwanted Applications. Click **Continue**.
9. Select your preference for the Customer Experience Improvement Program (CEIP) and click **Install**. You can change your CEIP settings after installation.
10. Click **Done** to exit the Installation Wizard.

The best for everyday
PC users

1 User 1 Year + 1 Year FREE Subscription

ORIGINAL PRICE: PHP 1,232.00

OUR PRICE: PHP 949.00

SUPPORTS:

Microsoft Windows® 10,
8.1, 8, 7 with SP1 and
latest KB updates
installed

FEATURES

(ON TOP OF NOD32 ANTIVIRUS FEATURES)

Firewall

Prevents unauthorized access to your computer and misuse of your personal data.

Anti-Theft

Helps you track and locate your laptop if it is lost or stolen.

Banking & Payment Protection **IMPROVED**

Features a special secured browser through which you can safely pay online. Automatically protects you on internet banking sites.

Connected Home Monitor **IMPROVED**

Enables you to test your home router for vulnerabilities, such as weak passwords or out of date firmware.

Antispam

Keeps unwanted emails from clogging your mailbox.

Webcam Protection

Constantly monitors all the processes and applications running on your computer, to see which ones want to use your webcam.

Parental Control

Gives you the option to choose from predefined categories according to the age of your kids.

Network Attack Protection

In addition to Firewall, automatically protects your computer from malicious network traffic, blocking threats revealed by dangerous traffic patterns.

DOWNLOAD AND INSTALL ESET INTERNET SECURITY

1. Uninstall any previously installed antivirus software on your system.

DOWNLOAD AND INSTALL ESET CYBER SECURITY PRO

1. Uninstall any previously installed antivirus software on your system.

NOTE: During installation and the first startup of your ESET products for macOS installed from the .pkg file, it is necessary to have internet access on your mac to allow Apple to verify ESET kernel extensions notarization.

2. Download the ESET Cyber Security Pro installer file from this link:
https://download.eset.com/com/eset/apps/home/ess/mac/latest/eset_cybersecurity_pro_en.dmg
3. The install package will appear in your **Downloads** folder or the default folder set by your browser. Click the file to open it.
4. Double-click the **Install** icon.
5. Click **Continue** to launch the Installation Wizard.
6. Read the **Introduction** and click **Continue**.
7. Review the **System requirements** and click **Continue**.
8. Click **Continue** → **Agree**.
9. In the Version Check window, click **Continue**. We highly recommend you install the latest version if you are notified one is available.
10. Select an Installation mode and click Continue.
11. Select your preference for **ESET LiveGrid** and click **Continue**.
12. Select your **Potentially Unwanted Applications** preference and click **Continue**.
13. Click **Install**.
14. When prompted, enter your administrator Name and Password and click **Install Software**.

15. The installation may take a few minutes to complete. When the **Installation was successful** screen displays, click **Close**.
16. After the first installation on macOS 10.13 and later, you will receive **System Extension Blocked** system notification and **Your computer is not protected** notification from your ESET product.
17. After installation is complete, the activation window will open automatically. In the **License Key field**, type or copy/paste your License Key and click **Activate**. Make sure you enter the License Key exactly as it appears and include the hyphens. If you copy/paste be sure you do not accidentally select additional space around the text.
18. If the activation window does not open automatically, in the menu bar, click the  or  icon in the menu bar. Select **Open ESET Cyber Security Pro** and click **Activate**.
19. If your credentials were entered in correctly, you will see the Activation was successful screen. Click Done to complete your activation. Your product will now automatically begin downloading the latest modules update.
20. In the **New network connection detected** window, select the check box next to Remember network, select your preferred **Profile** from the drop-down menu and click **OK**. If you are performing this installation in an office or home environment on a secure network, click **Home** or **Office**. Only select **Public** if you are traveling with your client computer and ESET Cyber Security Pro detects a new network.

Comprehensive protection for your Android smartphone and tablet.

1 User 1 Year Subscription

ORIGINAL PRICE: PHP 862.00

OUR PRICE: PHP 279.00

SUPPORTS:

Android 4.0 and higher

FEATURES

Real-time Scanning

Ensures that all installation files and installed apps are screened for malware

USB On-The-Go Scanner

Every connected USB device will be checked first to prevent malware accessing your smartphone.

Anti-Phishing

Protects against malicious websites attempting to acquire your sensitive information

Custom on-screen message

Send a custom message to the missing device to contact the finder. The message will appear on screen even when the device is locked.

Location Tracking

When the device is marked as missing, the location is regularly sent to my.eset.com and displayed on the map, helping you track its position in time.

Camera Snapshots

Snapshots are automatically and regularly sent from the phone's front and back camera to my.eset.com if the device is marked as missing.

SIM Guard

Lets you stay in control of your phone if it goes missing. Your phone will be locked when unauthorized SIM card will be inserted.

App Lock

Protects apps from unauthorized access by using a PIN or a fingerprint.

Connected Home Monitor **NEW**

Provides information about the security of your router. It also displays a list of devices connected to your network

DOWNLOAD AND INSTALL ESET MOBILE SECURITY

Before installing ESET Mobile Security

Uninstall previous builds: if you have an earlier version of ESET mobile security installed, make sure to uninstall previous builds before continuing.

Google Play: to download ESET Mobile Security from Google Play you must have a **Google Play account**. Your Google Play license purchase will allow you to download and install ESET Mobile Security, ESET Parental Control or ESET Smart TV security on up to 5 separate devices using the same account email.

1. Using your Android device, open the **Google Play** app and search for **ESET Mobile Security**. You can also visit the Google Play store using your computer and trigger your product to download to your device remotely.
2. Tap **Install**.
3. Tap **Open** when the installation is complete.
4. Select your desired language and country and tap **Next**. By tapping Next, you agree to the terms of the End User License Agreement.
5. Select your preference for ESET LiveGrid, the Customer Experience Improvement Program and ESET news and then tap Next.
6. Tap Select your email address.
 - a. If you already purchased a license, select the email address you entered when purchasing ESET Mobile Security. If you purchased your license through Google Play, select your Gmail account. This is the email address that will receive password reset emails from ESET if you forget your security password and need to unlock your device.
 - b. Tap OK.
7. Tap **Start first scan** to start scanning your device for malicious software.
8. Review the information and tap **Continue** in the **Allow access** screen and tap **Allow**. If you do not tap Allow, your installation will not continue. If you receive the "Screen overlay detected" message, you must resolve the permissions settings issue to close the Setup Wizard.

9. If you have purchased a license, **activate ESET Mobile Security for Android**.
10. Once ESET Mobile Security is activated, configure **Anti-Theft protection** and add a **Trusted Friend** to your device. You can use a Trusted friend's phone and your enabled Anti-Theft account to help you reset your Security password and restore access to your device if you forget or lose your Security password.

For instructions with illustrations, visit this site: <https://support.eset.com/en/kb2997-download-and-install-eset-mobile-security-forandroid>

Protect your children online
with confidence.

1 User 1 Year + 1 Year FREE Subscription

ORIGINAL PRICE: PHP 1,232.00

OUR PRICE: PHP 949.00

SUPPORTS:

Android 4.0 and higher

FEATURES

List of most visited domains

Shows the top visited websites for the last 7 days.

Web Guard

The app automatically blocks predefined website categories, such as adult or offensive content, based on the child's age. You can decide to block additional categories or specific website addresses (URLs). Includes Safe Search that helps categorize results from search engines and blocks inappropriate content from search results.

Monitoring-only mode for websites

Don't want to block content right away? Activate the monitoring mode and receive reports on the websites the child visits.

Application Guard

Automatically blocks inappropriate applications based on the Google Play content rating

Time-based app control

Set maximum usage time for the given day, and prohibit access to Fun & Games category during specific hours – such as during sleep time or school time.

Monitoring-only mode for apps

Switch to monitoring-only mode for app categories and specific apps when you don't want to automatically block apps based on the ESET Parental Control for Android categories.

Battery Protector

Setup battery level, when device will block all Fun&Games applications to save battery for main accessibility.

Child locator

Check the child's current location at any time via my.eset.com or Application in Parent mode. This feature displays the location of any and all of the kids' devices connected to the Internet.

Geofencing

Allows parents to set up zones and sends alerts when the child oversteps them.

DOWNLOAD AND INSTALL ESET PARENTAL CONTROL

INSTALL ON A PARENT DEVICE

1. On your Android device, open the [ESET Parental Control for Android download page](#).
2. When prompted, tap **Play Store**. Alternatively, you can tap **Internet**, select the device you want Parental Control installed on and then tap **Install**.
3. Tap **Install**.
4. Tap **Open** once the installation is complete.
5. Select your desired language and tap **Accept**.
6. Tap the check boxes to allow applicable Customer Experience Improvement Program and promotional settings, or tap **Next**.
7. A my.eset.com account will be required to continue. If you already have an account, tap **Sign In** and enter your credentials. If you do not have an account, tap **Create Account**.
8. Complete the required fields, tap the checkbox next to **I agree to ESET's Terms of use** and then tap **Create Account**.
9. Create and confirm a parental PIN. This PIN will be used to change the ESET Parental Control settings on your child's device.
10. In the **Whose device is this?** screen, tap **Child** or **Parent**, depending on who you are setting this app up for. If this is your device (parent), and you intend to manage a child's device from ESET Parental Control for Android, you will also need to install ESET Parental Control for Android on the child's device. If you are installing on a child device, continue to the next section.
11. Tap **OK**. ESET Parental Control is now installed on your device.

DOWNLOAD AND INSTALL ESET PARENTAL CONTROL

INSTALL ON A CHILD DEVICE

1. Complete steps 1-11 in the previous section and then tap the + icon to add a child profile.
2. Type your child's name, enter their date of birth and gender, optionally add a photo and then tap **Save**.
3. ESET Parental Control for Android needs certain permissions to function correctly. To allow permissions for the Parental Control service, tap **Next**.
4. Tap **Parental Control**.
5. Tap the slider bar next to **Off** to enable Parental Control.
6. Tap **Allow**.
7. Tap **Next**.
8. Tap **Parental Control**.
9. Tap the slider bar next to **Allow usage tracking** to enable it.
10. Tap **Next**.
11. Tap the slider bar next to **Allow permission** to enable it.
12. Tap **Next**.
13. Tap **Activate**.
14. Tap **Continue**.
15. Depending on your preference, tap **Allow** or **Deny**.

16. Depending on your preference, tap a setting to allow Parental Control access on this device's location.
17. Tap **Enable**.
18. Parental Control is now installed on your child's device. For more information about Parental Control, visit our [Online Help documentation](#).

FREQUENTLY ASKED QUESTIONS

- **How do I transfer/reuse my ESET product to new computer or device?**
 - Uninstall any non-ESET antivirus software on your new computer or device
 - Install your ESET product on your new computer or Mobile Device
 - Uninstall ESET from your old computer. If your old computer is not working, then you do not have to complete this step.
- **How do I resolve the "This license is used on too many devices" message?**
 - If you have installed an ESET product on more devices than your license allows, This License is Overused will be displayed. You can disable or remove a license from ESET License Manager. You can access ESET License Manager at **my.eset.com**
- **How do I activate the premium features in ESET Mobile Security?**
 - After you have purchased the Premium version of ESET Mobile Security for Android you may need to manually enter your License Key to activate the premium product and access your premium features.
 - You will need your License Key from the email you received from ESET after your purchase.
- **Where can I find my license username and other details?**
 - Open your Windows ESET product. Press Ctrl + U on your keyboard to open the details window.
 - Open ESET Cyber Security or ESET Cyber Security Pro. Press COMMAND + U to open the Username and Password setup window. Or, click Update from the main menu on the left and then click Update license details
- **How can I retrieve my lost or forgotten ESET license?**
 - If you have lost or forgotten your license information (username, password, or license key), you can have it resent to your email address. Please send the email address you originally used to register or activate your ESET license to wecare@b1g2.io with the email subject: **Retrieve ESET License**
- **What are the different ESET product update and release types?**
 - ESET products are composed of modules that can be updated with new versions, features and detections at any time. Detection Engine update information is displayed in the main program window of your product. You can also scroll over the ESET icon in the Windows notification area to view notifications.

- **Where can I ask for customer support?**
- You can leave a message at our [Facebook page](#) or send an email to wecare@b1g2.io

- **Can I sell to my friends and relatives outside the Philippines?**
- No, the license will have license activation problems
- Licenses are geographically locked, only to be activated from the country of origin.

- **How do I validate if the community seller is an official seller?**
- You may send us a message at our Facebook page <https://facebook.com/esetph> and we will validate it with you

- **Will I get a receipt?**
- Yes, we can send you a digitized copy of your official receipt
- Yes, you can ask for your physical official receipt.

- **Who will take care of customer support?**
- We will take care of customer support, we just want you to help us sell to your community and to your friends

For any inquiries you may send us a message at <https://facebook.com/esetph>
